

MICRO~TECH U.S.A.®

Network Migration

Exchange

upgrade or migration \$1500

Microsoft Exchange Server 2007 is designed to deliver increased protection for your business and give your employees access to their emails, voice mails, faxes, calendar, and contacts, virtually anywhere, while being operationally efficient to deploy, manage and maintain.

File Server

upgrade or migration \$2000

Enables you to increase reliability and flexibility. New web, virtualization, and security tools help to save time and reduce cost of your datacenter.

SQL Server

upgrade or migration \$1000

Beneficial for both enterprise and midsize organizations. With up to 35 percent faster transaction processing, SQL Server 2005 optimizes your IT infrastructure for growth and helps align IT with business objectives.

Frequently Asked Questions

Why should I upgrade?

Microsoft has stopped supporting older operating systems. To keep from risking your whole enterprise, Micro-Tech U.S.A. believes the best solution for this change of heart of Microsoft, is to upgrade to a newer system.
